4. **As per claim 12 and dependent claims 13-20 and 31**, the examiner found no reference in the prior art that disclosed or made obvious a window device comprising a support, film, adhesive, and coating, forming a vacuum tight assembly; the coating including a boron-hydrogen composition, as recited in independent claim 12.
5. **As per claim 21 and dependent claims 22-25**, the examiner found no reference in the prior art that disclosed or made obvious a method of making a radiation window comprising the steps of applying a liquid adhesive to an area of contact between a film and a support, the film configured to transmit soft X-rays and b) applying a temperature greater than approximately 250 degrees Celsius to the adhesive, the film and support to cure the adhesive, as recited in independent claim 21.

7. As per claim 32, the examiner found no reference in the prior art that disclosed or made obvious a window device comprising a film, mounted directly on a support across an opening, having a material and a thickness selected to transmit soft X-rays; the material and the thickness of the film being configured to transmit at least 10% of incident radiation of wavelength longer than 18.5 Angstroms, as recited in independent claim 32.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
